About us

Calvo Izquierdo designs and manufactures bandages and medical textiles. Founded in 1956, we are a family owned company located in Requena (Valencia region) Spain.

Our goal is to market high quality products that fulfill the needs of healthcare professionals and final users alike. In order to assure continued product excellence, we have assembled an outstanding team and employ modern facilities and production technologies.

We have a fully integrated production process that comprises all steps from yarn to the finished bandage. All the company´s activities are audited and certified under European legislation as well as international standards ISO-9001 and ISO-13485. Since our earliest days, we have demonstrated an innovative spirit with a constant focus on R&D and customer satisfaction.

Our production portfolio includes products such as cohesive bandages, crepe bandages, adhesive bandages and elastic bandages. We market all these bandages under our brand VENDARI. At the same time we also cooperate with international companies manufacturing in accordance with their technical specifications or private label.

Private Label

Increasing value through cooperation

Yarns | Fabric | Sizing | Finishing | Distribution

Every company aspires to have suppliers that understand all its needs and have the capacity to provide products of the highest quality and best prices matching its requirements.

In order to achieve this objective, Calvo Izquierdo offers a comprehensive supporting private label service to its customers:

- ✓ Adaptation to customer´s product specifications
- ✓ Personalized labeling and packaging
- ✓ Production according to international standards
- ✓ Available for small quantities
- ✓ Favourable pricing

In addition, the innovative nature and capacity of Calvo Izquierdo allows us to design increasingly competitive solutions and thus increase customer profitability.

Calvo Izquierdo becomes your trusted partner

Our lastest R+D proyects

We constantly innovate, developing products with new features

Thermal Confort

Keeps internal temperatura stable in the bandage application área

Cooling effect

Bandages with anti-swelling properties

Primere +

Specially designed device for measuring bandage compression

Kits

Combining different bandages for various applications
